

Please do not lessen the no call protection here in indiana. I was recieving about 3 or 4 calls a day, now i recieved only 1 call in 8 months. If i want any information i will go to the company or call my selve. i had a call that would not hang up when i had an emergancy. so by lessing the law you could be killing someone becouse they could not get to the 911 line, becouse they want to sell you siding for your house.
